

Jazz & Riffs
hardware collection™
MUSIC TO YOUR EYES

The Story

The Jazz and Riffs Hardware Collection offers a fusion of elegance and durability inspired by the dynamic essence of Jazz music and vibrant Latin rhythms. Crafted with meticulous care in the USA, each piece in this collection showcases the sophisticated interplay of crystal-clear, layered glass with the robust sturdiness of stainless steel.

The collection's glass components come in eleven distinctive colors, reflecting a spectrum of hues that harmonize beautifully with hand-polished solid stainless-steel finishes. Choose between the sleek mirror-polished or the understated satin nickel options to complement your design vision.

Perfect for a range of interiors—from high-end residential spaces and fine furniture to hospitality settings like restaurants, spas, and hotels—the Jazz and Riffs Hardware Collection adds a touch of jewelry-like sparkle and refinement to any space.

Each piece is handmade, and as a result, slight variations in color and shade are expected and embraced as part of the collection's artisanal charm. This unique touch ensures that every piece is not only a functional component but also a standout element in your interior design.

The Collections hold two US design patents by founder, interior designer Alexa Milton IIDA.
The Jazz & Riffs Hardware Collection is a registered Trademark since 2015.
