

*Jazz & Riffs*  
hardware collection™  
MUSIC TO YOUR EYES

## *The Story*

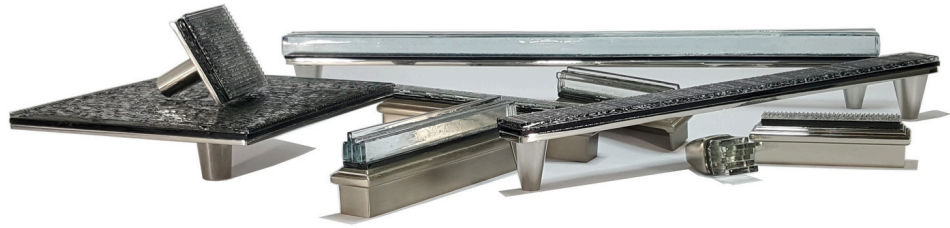

Inspired by the rich tones of Jazz Music and spicy Latin Riffs, the Jazz and Riffs Hardware Collection was created to inspire again and again. Crystal clear layered and ribbed glass sparkles and shines with pure, clear color, harmonizing and moving, yet composed. Add the sparkle of jewelry to your next interior project. This distinctive hardware line was created for hospitality interiors, yet is perfect for fine furniture, cabinets and doors in restaurants, spas, hotels and high-end residential spaces.

Jazz and Riffs Hardware Collection, LLC is handmade in the USA, using forged glass and stainless steel. Elegant, yet durable, this stunningly designed glass comes in ten colors. Choose hand polished solid stainless steel in either mirror polished or satin nickel finishes. Combined and fused together they make elegant and durable cabinet knobs and pulls.

Due to the Artisan nature of this handmade process, slight variations of shades and colors may occur, though minimal, and are considered part of the beauty of the design.

The Collections hold two US design patents by founder, interior designer Alexa Milton IIDA.  
The Jazz & Riffs Hardware Collection is a registered Trademark since 2015.
